ATTENTION!

Water Meters for Single Family Homes

Effective immediately, all new or remodeled, single-family homes will receive a one (1) inch water meter as the standard installation. Meters larger than one (1) inch will no longer be allowed in single-family homes. Builders or owners who request larger water meters will need to do so in writing to the Director of Public Works. The request must demonstrate that the water demand for the home significantly exceeds the capacity of the City's standard one (1) inch water meter.

Questions regarding this policy may be directed to the Superintendent of Utilities, Roderick O' Donovan at 630-530-3042.
